

J.W. FISHERS

**THE WORLD'S
FINEST UNDERWATER
METAL DETECTORS
AND ELECTRONICS**

We have been designing and manufacturing the most complete line of underwater metal detectors since 1964. They are purchased by both the U.S. and foreign Navies, police departments, civil defense agencies, universities, investigating agencies, salvage and power companies. Fisher detectors are designed to withstand the punishment of commercial salvage operations and depths well in excess of 200 feet.

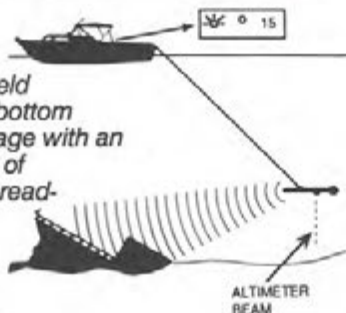

UA-1-UNDERWATER ALTIMETER

PRECISION DISTANCING FOR TOWED EQUIPMENT

Allows underwater detection and survey equipment to be held at precise altitudes above the bottom and helps avoid collision damage with an adjustable alarm which warns of bottom changes. A large LED read-out shows depths in .1 foot increments from 2 to 9 feet and in 1 foot intervals from 10 to 99 feet. The system comes complete with Control Box, 150 feet of cable (up to 1000 feet available) and a transducer that mounts on the bottom of your equipment. TWO YEAR WARRANTY

DV-1-DROPPED VIDEO

THE IDEAL VISUAL SEARCH AND OBSERVATION TOOL

The Fishers DV1 is a 12 v dropped video system that includes: 10 LUX low light B&W camera, leak detector, two 100w lights, and 150 ft. cable. The DV1 connects to a topside TV monitor or conventional TV set and a VCR may be added to create a permanent record.

- QUALITY HIGH RESOLUTION B/W CAMERA • LARGE VIEWING AREA PROVIDED BY A 60 DEGREE LENS • COMPACT SYSTEM FOR RAPID DEPLOYMENT • 150 FT. CABLE (250 FT. OPTIONAL) • TWO 100 WATT LIGHTS • COLOR CAMERA (OPTIONAL) • TWO YEAR WARRANTY

PROTON 1

MARINE MAGNETOMETER—THE ULTIMATE IN DETECTION FROM FISHERS

PROTON 1 SENSITIVITY

1-GALLON CAN	6 FT. (180 cm)
5-GALLON CAN	8 FT. (240 cm)
10-GALLON CAN	11 FT. (340 cm)
55-GALLON CAN	25 FT. (7.5 m)
4000-LB. IRON MASS	85 FT. (26 m)
BARGE	200 FT. (60 m)
LARGE SHIP	800 FT. (240 m)

Extreme sensitivity but only detects ferrous (iron/steel) metals. Almost every major wreck find over the past 20 years has been located with a Proton magnetometer. The Fishers Proton 1 is specifically manufactured for underwater salvage work and will operate month after month without adjustment. With a four-digit LED readout, wrecks can be pinpointed accurately for buoy marking.

- LOW COST • 150' CABLE (400' OPTIONAL) • OPERATES FROM 12 vdc • 800' RANGE • WILL PINPOINT WRECK • SHIPPED READY TO GO • TWO YEAR WARRANTY

PULSE 10

OUR MOST POWERFUL BOAT TOWED PULSE DETECTOR

PULSE 10 SENSITIVITY

QUARTER-COIN	.11 IN. (28 cm)
25 LB. LEAD INGOT	.27 IN. (70 cm)
ONE GALLON CAN	.4 FT. (120 cm)
AUTOMOBILE	.10 FT. (300 cm)
SHIP (MAX. RANGE)	.11 FT. (330 cm)

Detects both ferrous and non-ferrous metals. Mel Fisher has purchased a quantity of these detectors for his salvage operation. The Pulse 10, boat-towed pulse detector features an 18" diameter coil mounted on a towable fish with a 150' cable (optional 300' cable available). The fish sails through the water at any depth down to 150/300 feet and has a range of 11 feet for large objects and will detect a one gallon can four feet away. The Pulse 10 ships ready to go except for batteries (requires two 12v batteries connected in series = 24v).

- VERY SENSITIVE AND STABLE • DETECTS FERROUS AND NON-FERROUS METALS • HI/LO SENSITIVITY SWITCH • 4 FOOT HIGH IMPACT PVC FISH • 18" DIAMETER, HIGH IMPACT EPOXY, SEARCH COIL • TWO YEAR WARRANTY

MARK 7

**OUR MOST ECONOMICAL BOAT TOWED
DETECTOR**

MARK 7 SENSITIVITY

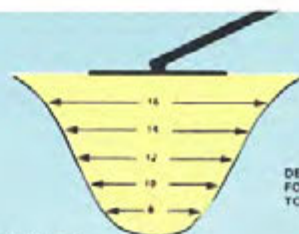

- QUARTER-COIN 4 IN. (10 cm)
- 25 LB. LEAD INGOT 2 FT. (60 cm)
- 1 GALLON CAN 2 1/2 FT. (75 cm)
- AUTOMOBILE 5 1/2 FT. (165 cm)
- SHIP (MAX. RANGE) 7 FT. (210 cm)

The MARK 7 was designed to fill the need for an economical boat-towed detector for fresh water searches. Ideal for locating large masses of metal such as cannons, anchors or outboard motors by utilizing low speed search patterns on lakes and rivers.

- 150/300 FOOT CABLE • 32" (80 CM) EPOXIED COIL • 7 FOOT RANGE • TWO YEAR WARRANTY

PULSE 8

**OUR MOST SENSITIVE HAND HELD PULSE
DETECTOR**

PULSE 8 SENSITIVITY

- PENNY 12 IN. (30 cm)
- QUARTER 13 IN. (33 cm)
- 2" x 2" x 1/8" ALUM. 15 IN. (38 cm)
- 4" x 4" x 1/8" ALUM. 20 IN. (50 cm)
- 1 GAL CAN 46 IN. (115 cm)
- LARGER TARGETS MAX. 8+ FT. (240 + cm)

Top of the line; the PULSE 8 is the finest pulse detector available on the market today. Hundreds of these units have been sold to satisfied divers including the most famous treasure diver of them all, Mel Fisher.

- FOR UNDERWATER OR ON LAND
- DETECTS ALL METALS • WILL NOT DETECT MINERALS • RECHARGEABLE BATTERIES & CHARGER • CARRYING BAG • U/W AND LAND EARPHONES • TWO YEAR WARRANTY

PULSE 6

THE MOST ECONOMICAL HAND HELD PULSE DETECTOR

DETECTION AREA
FOR A PENNY-DRAWN
TO SCALE

PULSE 6 SENSITIVITY

- PENNY.....6 IN. (15 cm)
- QUARTER.....7 IN. (18 cm)
- 2" x 2" x 1/8" ALUM.....10 IN. (25 cm)
- 4" x 4" x 1/8" ALUM.....13 IN. (33 cm)
- 1 GAL CAN.....27 IN. (68 cm)
- LARGER TARGETS TO A MAXIMUM 6 FT. (185 cm)

The PULSE 6 equals the performance of competitive units produced as top-of-the-line equipment and it does so at a fraction of the cost. The PULSE 6 can be updated to the specifications of a PULSE 8 at any time and, of course, shares many of its features including Fishers craftsmanship.

- FOR U/W OR ON LAND
- DETECTS ALL METALS • WILL NOT DETECT MINERALS • RECHARGEABLE BATTERIES & CHARGER • CARRYING BAG • U/W EARPHONES
- TWO YEAR WARRANTY

MARK 1

OUR MOST ECONOMICAL HAND HELD METAL DETECTOR

DETECTION AREA
FOR A PENNY-DRAWN
TO SCALE

MARK 1 SENSITIVITY

- PENNY.....4 IN. (10 cm)
- QUARTER.....5 IN. (12 cm)
- 2" x 2" x 1/8" ALUM.....9 IN. (22 cm)
- 4" x 4" x 1/8" ALUM.....13 IN. (33 cm)
- 1 GALLON CAN.....20 IN. (50 cm)
- LARGER TARGETS MAX.....4 1/2 FT. (135 cm)

The MARK 1-Audio is ideal for the weekend diver seeking to add a new dimension to fresh water diving. MARK 1 comes complete, ready to go and features the same quality craftsmanship found in all Fishers products.

- FOR U/W OR ON LAND
- LOW COST • LARGE, EASY TO READ METER • U/W EARPHONE • ALL METALS—FERROUS/ NON-FERROUS • TWO YEAR WARRANTY
